Galvanized finish ensure long lasting performance in outdoor environments

**FOR HOME OR COMMERCIAL USE**

Durable design suits both backyard setups and heavy commercial use

**QUALITY MATERIALS**

Industrial strength Swedish steel ensures quality that lasts

# MULTIPURPOSE STRENGTH

## THE BASICS FOR STRENGTH TRAINING

The galvanized XF 80 Half Rack with Pull-Up is a perfect addition to any backyard gym or outdoor facility, supporting bench presses, squats and pull-ups in one compact unit. The galvanized finish provides weather- and rust-resistance, extending the durability and performance of the rack. The pull-up bar sits at 2.3 meters to accommodate a range of users. The rack can be further customized with attachments to create an outdoor training space tailored to your needs.
