

DESIGNED FOR
Squats and presses

CUSTOMISATION
Add attachments to suit unique needs

BOLT DOWN HOLES
Included for anchoring the rack to ensure stability and user safety

USER FRIENDLY
Clearly marked height increments for even cup placement

STRENGTH FOUNDATION

BUILD IT UP TO SUIT YOUR UNIQUE NEEDS

Choose the Eleiko XF Half Rack with Cross Bar as the foundation and customize the rack with a variety of attachments to suit your unique needs. With the appropriate attachments, this rack is best used for bench presses and squats but can be outfitted with accessories. The sturdy steel tubing is finished with a sleek matte black textured powder coat that wears well in tough training environments. The rack must be bolted to the floor for user safety, and holes are integrated into the base for anchoring the unit to the ground in a way that minimizes trip hazards.
