

DESIGNED FOR

Training glutes, hamstrings and the midline

SECURE FOOT POSITION

Both foot rolls can be adjusted independently ensuring a snug fit for each user

CUSTOMISED FIT

Users can easily adjust pad set up for an appropriate fit

QUALITY AND DURABILITY

Design and materials carefully chosen to ensure long lasting performance

SKAI® CUSHIONS

Gives the look and feel of leather without the wear and tear

BUILD YOUR BASE

TRAIN GLUTES, HAMSTRINGS AND THE MID-LINE TO OPTIMISE PERFORMANCE

Our durable Glute Ham Developer is built from high-grade Swedish steel and designed with a solid base underneath so it will stand up the challenges of today's tough training. Knurled handles on the front of the unit ease positioning, use and exit. A range of adjustments allow users to get the perfect fit. Knurled knobs are easy and comfortable to grasp and adjustment mechanisms are simple to operate. The cushions strike the right balance between comfort and support, we use Skai® covering which means our pads are supple, durable and easy to maintain. Non-marking rubber feet protect floors. Our GHD incorporate wheels for easy portability and bolt down holes for added stability. Durable material in the cushions and sturdy black powder coated step-in and foot plate keep the machine looking great with heavy use.
