

DESIGNED FOR

Giving lifters greater control and improved safety

HIGHLY ADJUSTABLE

Safety arms and j-cups are easily adjustable at 25 mm increments, accommodating a variety of lifting positions

OPTIMIZED TUBING AND UPRIGHTS

Tubing and upright spacing supports both bench press and squat, adding space without compromising load capacity.

DESIGNED FOR DURABILITY

Sleek stainless steel uprights are long-lasting, standing up to impacts and resistant to abrasions.

INTEGRATED WEIGHT STORAGE

Features four integrated storage pins on each side for convenient plate storage

ALL-IN-ONE FUNCTIONALITY

PRECISION-MADE FOR PRECISION LIFTING

Sleek uprights, optimized geometry and precise adjustment increments give lifters greater control and improved safety. The rack geometry balances the needs of both bench press and squats optimizing the spacing for each lift — there is ample room to grip the bar, lift off and rerack the barbell without hitting the flanges for a smoother, safer lifting experience. Safety arms and j-cups are easily adjustable, gliding along the uprights and locking in at place at 25 mm increments accommodating a variety of height placements and lifting positions. The j-cups and safety arms are protected with durable moulded plastic that is curved at the ends to guide the barbell towards centred positioning. Four storage pins on each side offer convenient full-size plate storage. Sleek stainless steel uprights are high performing, long-lasting, standing up to impacts and resistant to abrasions. Hidden bolt down holes minimizes trip hazards, provide stability and maintains the rack's sophisticated appearance.
